

African  
Community  
Health initiative

## ACHI – A great start towards a bright future

- ACHI is a non-profit, non-governmental organization **founded in 2006**.
- All members and participants are **volunteers**.
- Volunteers and Registered Nurses work with local community centers to provide services.
- Over the past years, efforts have been expanded in **Nigeria and to Namibia**.

## A brief history

- ACHI started with 1 village in 2005. In 2010, we were able to reach 12 villages.
- Initially, ACHI only evaluated women; now everyone, regardless of gender or age, is seen.
- In 2005, 150 people were seen; In 2010 ACHI saw 3,400 people.

### Notes:

But due to lack of sponsors...in 2014 we only reached 4 villages

In 2014: 1,842 people were seen

## Our Staff

- Our staff is entirely made up of volunteers:
  - Security
  - Drivers
  - Nurses
  - Doctors
  - Health Educator
